# STEPPING INTO THE DEATH OF THE EGO

with

**Ma Jaya Sati Bhagavati**

**July 17-19, 2008 \***

The lower ego loves to keep us separate from our higher selves. When we are ready to allow our ego to fall away and die, we need to learn about the process of ego death. If we hold onto our ego this can be painful, but if we are ready and grateful to surrender the ego, the process can be even blissful. Those who want to die spiritually can live well, because there's nothing to lose and everything to gain. This intensive will explore the art of letting the ego die gracefully.
